Still waiting to get an official response, but it sounds like we are only going to get an AO that addresses the restriction to the property. Modeling will not be addressed.

Thanks for letting me know.

Does it look like you have agreement with USG on the modeling, third party mediation, and other open items, or will you be asking EPA to handle the other-than-fence portions of this case?

Subject: USG Red Wing

Brian – I wanted to let you know that our attorney (Leslie) informed me that she spoke with USG's attorney yesterday. USG's attorney called your attorney (I do not know the name) about the modeling demonstration. I just wanted to give you the heads up, maybe you were already aware of this.
